Doeun Han

Hello, Steven, the below link is our agenda for this week meeting. Please see it and make some comment on <https://github.com/DiaoFu/Accelerating/issues/50> Since we need to record the interaction with you in our r so it would be helpful for you to make some comment on it.
<https://github.com/DiaoFu/Accelerating/issues/50>

Sep 12, 2024 5:06:32 pm

Steven De Costa

Ok. Sounds good :)

Are there any updates on the learning and such, maybe noted in the public domain or otherwise shared for kinda take a look at?

Sep 06, 2024 2:30:23 pm

Doeun Han

Good morning, Steven, we are currently collecting data through various alternative paths. We plan to comp data collection by the end of this week and move on to the next stage. There don't seem to be many discus points this week, so it would be great if we could present our progress during next week's meeting.

Sep 06, 2024 10:34:05 am

Steven De Costa

Heya folks, how has the week progressed and what kind of session should I prepare for tomorrow?

1. The team is back on track with the data analysis approach after getting past the data source blockers.
2. The team still has blockers and will progress past these to focus on learning and development via alternative

In either case it would be good to see any examples of the the points the team are documenting and the cc outreach/collaboration that might be underway.

Aug 31, 2024 3:39:55 pm

Steven De Costa

Guys, I might be 10 min late to come online.

Aug 31, 2024 2:50:44 pm

Diao Fu

😊 sure

Aug 31, 2024 11:11:49 am

Steven De Costa

I've sent the invite to a gmeet for 3pm today.

I will actually be meeting someone on campus at Badger & Co at 1pm today, so I'll join via my laptop from somewhere at ANU where it is quiet and the session can be recorded.

Catch you all a bit later :)

Aug 31, 2024 10:29:09 am

Diao Fu

thanks a lot. room 221

Aug 30, 2024 5:03:22 pm

Steven De Costa

Yep. Just finished a meeting and will be there soon :)

Aug 30, 2024 5:01:35 pm

Diao Fu

Diao sent an attachment.

Aug 30, 2024 4:50:51 pm

Diao Fu

Dear Steven, our group is the last one to represent.maybe 5:30pm today

Aug 30, 2024 4:50:35 pm

Doeun Han

Hello Steven, once you see documents, if you agree with that, please sign the docs on the last page. Thanks

Aug 26, 2024 4:06:40 pm

Diao Fu

Hi @Steven De Costa ,how about 3pm this afternoon?yuxin Mu will contact you to double check the outcor we have be consistent with our tutor, and we want to know is that also be satisfied with you.

Aug 25, 2024 10:05:27 am

Diao Fu

ok

Aug 24, 2024 2:48:02 pm

Steven De Costa

Heya folks, I've just had something come up with my daughter and I can't make it to campus for the 3pm sc

I hate to ask this so late, but can we reschedule to an online call at some time tomorrow?

Aug 24, 2024 2:45:26 pm

Doeun Han

Thanks for the good reference. We are gonna check out that!!

Aug 17, 2024 9:02:30 pm

Steven De Costa

He still does good stuff with R and CKAN and is involved in this client project for R :)

<https://docs.ropensci.org/ckanr/>
Client for CKAN API (<<https://ckan.org/>>). Includes interface to CKAN APIs for search, list, show for package organizations, and resources. In addition, provides an interface to the datastore API.
<https://docs.ropensci.org/ckanr/>

Aug 17, 2024 4:44:14 pm

Steven De Costa

Heya folks, some good questions were asked today. As mentioned, I'll review things once they are published to do a response within 24 hours. Just ping me here when I should check.

For some inspiration, here is a video from 2015 where Florian und through something he built with CKAN p other gear :)

https://youtu.be/zbsSXM4Cdbc?si=8yfc_hjl94u30tqQ
Florian Mayer from the Western Australian Department of Parks and Wildlife presents the various methods using to create Wisdom.Data+Code = Informationl...

Coming

Aug 17, 2024 2:54:33 pm

Steven De Costa

Neat :)

Aug 17, 2024 2:52:34 pm

Diao Fu

yeah on the way

Aug 17, 2024 2:52:05 pm

Steven De Costa

Heya folks, I just realised my EA only had the 3pm meeting scheduled in for the first week.

I'm outside at the Hive now, a bit early.

Is everyone still ok for 3pm today?

Aug 17, 2024 2:48:22 pm

Steven De Costa

Btw, a friend of mine shared this video with me early April this year, which folks here might find interesting.

https://www.youtube.com/watch?v=_TUVXfM1nqo

It talks about policy over many years to broaden the topic of affordable housing.

My reply in comment with my friend in June, when I finally watched the video, was:

Finally watched this. Nice summary and fairly fair. I wish they hadn't added the tropes of 'honest hard worki Australians' in there so heavy and just spoke to the numbers and system and the effects.

I've heard it said there are only three paths to wealth in Australia and those are property development, linc (food, wood, etc) and extractive. All of these are capital title based wealth with rents, earnings or resource sa determining the capital value.

The broad economic value and productivity Australia can leverage for major infrastructure works is somethir Government can influence via trade policies and all sorts.

Yes the domestic housing situation might suck but this vid didn't appear to go into why policies are the way

I suspect they are the way they are due to the basic niche Australia has in the global economy. Not to say we shouldn't try to fix things, but I think this was missing from the vid.

See how the media is shaping stories worldwide with Ground News. Head over to <https://check.ground.news> to delve into diverse perspectives and get a 1...

https://www.youtube.com/watch?v=_TUVXfM1nqo
1635855486666999

Aug 12, 2024 10:00:10 am

Steven De Costa

Yes, that is correct :)

It is also valuable to me that this team and the outcomes you achieve can become a case study, an example which I can then grow and develop even more support for CKAN as a project and open data as a valuable product good.

1635855486666999

Aug 10, 2024 10:25:15 pm

Doeun Han

Hello, Steven, Today, I finally understood what you really want. Last week, both I and the other team member thought that you had specific needs in terms of product development. The team primarily understood the product focusing on expanding the current CKAN technology with a separate focus on product development. However, after our conversation today, I realized that there is already a significant supply of public open data, and your company made it easily accessible. What you really want is to see an increase in demand, possibly through any use case that aligns with the values your company pursues. In other words, any use case that fits your or your company's goals is acceptable.

Therefore, the specific direction could involve analyses on particular topics using CKAN, the development of analytical tools leveraging CKAN, or even both. The key point is to more clearly analyze where in the current data pipeline we can enhance demand. If our team can provide improvements in those areas, I believe it will be beneficial. Does my understanding seem correct?

Aug 10, 2024 8:10:28 pm

Steven De Costa

Quick update is I have to start cooking dinner, so I'll update the document a little later tonight.

But, people can lookup [GovHack.org](https://govhack.org) and see there is an event coming up.

GovHack has an archive of previous year projects and many of those are the sorts of things that can be examined.

GovHack is something that generates demand for open data, even if only to support the hackathon itself. It also provides an example of the value that such data might support within the civic tech community.

GovHack 2024 is 6-8 September! GovHack is an annual open government data competition held all over Australia and New Zealand.

<https://govhack.org/>

Diao Fu

no worries

Aug 10, 2024 3:01:19 pm

Steven De Costa

Will be there soon. 5 min

Aug 10, 2024 3:00:37 pm

Steven De Costa

I hope folks have had a chance to look at the various material highlighted for week 1.

It will help today.

Aug 10, 2024 1:41:28 pm

Diao Fu

Aug 10, 2024 1:40:21 pm

Steven De Costa

Yes, 100% :)

Aug 10, 2024 1:39:57 pm

Diao Fu

Good evening, Steven, we still have a client meeting tomorrow at 3 pm in hive, right?

Aug 09, 2024 7:16:27 pm

Steven De Costa

Yep. No worries. Understood :)
1635855486666999

Aug 06, 2024 12:15:20 am

Doeun Han

Sorry, my bad. I meant your doc, which you worked today. When I reviewed your doc, it seems like we are going to delve into CKAN and some flowwork. So, I said it is okay, in my opinion. Anyway, please finish your work, we are having a talk about it. Cheers, Doeun Han

Aug 06, 2024 12:14:18 am

Steven De Costa

Kk.

In that case I'll tidy and finish that document in the morning, then review the SoW version.

Cheers,
Steven

Aug 06, 2024 12:03:00 am

Doeun Han

Hello Steven, thank you for your guidance in detail. I think that it would be helpful to start some specific work and delve into how CKAN works and their workflow. After two weeks later, I think that definitely we can find some idea. Other people are thinking about that, might answer after considering it.

Aug 05, 2024 8:58:50 pm

Steven De Costa

Ok, so I think I have the first three weeks covered in decent detail, with the remaining weeks to complete with reference to deliverables from 24 August.

I have to take another break and return to this a bit later this evening. Any feedback on whether the detail and tasking is now easier to follow would be great.

Aug 05, 2024 6:50:25 pm

Steven De Costa

Yep, I plan to rework the original doc and then review the SoW.

The level of detail I'm attempting to add is what you can see within the Week 1 project phase now in this doc <https://docs.google.com/document/d/1md99kstAaTuifXVRClaptFmCMSCBbFdX9rEAW3lGxoc/edit?usp=sharing>

Importantly, I have outlined the reading and learning items for this week. It is fine to skim some of the videos and can allocate between the team to have some people try to do a deeper dive into any area.

<https://docs.google.com/document/d/1md99kstAaTuifXVRClaptFmCMSCBbFdX9rEAW3lGxoc/edit?usp=sha>
Accelerating Everything with Next Generation Knowledge Operations Overview The team that accepts this p
build on the foundations of the open data movement to iterate on open source technology and civic techn
concepts to build with data schemas, infra code, GitOps, Python librari...

<https://docs.google.com/document/d/1md99kstAaTuifXVRClaptFmCMSCBbFdX9rEAW3lGxoc/edit?usp=sha>

Aug 05, 2024 5:50:57 pm

Doeun Han

I see, Thank you for your attention. After working on the Google Doc, the document we need to sign and s
Steven is the SOW. We would greatly appreciate it if you could reflect the specific tasks (plan) in the SOW at
reviewing the SOW we provided. Thank you.

Aug 05, 2024 3:44:41 pm

Steven De Costa

Kk. I have made some progress with updating the proposed project and making tasks more specific, doable
in terms of how they might be shared.

I have to jump into something else for the next two hours and will come back to it.

If folks look at that google doc I originally shared then you will see the way I have started to break things d
weeks. I'll add to this more from 5pm.

Aug 05, 2024 3:09:22 pm

Doeun Han

No worries. Since you will let TechLauncher folks know about the current situation, I think there would not b
penalty for our assessment. Also, assessment started from this morning, so if we let other tutor, examiner, a
opposite team know our situation tonight, then they will assess us from tomorrow. Thanks for your help.

Aug 05, 2024 11:04:46 am

Steven De Costa

Perfect, and truly, I apologise for causing stress here folks. It was great to learn more about the team's nee
Saturday and I'm very keen to help you with a neat project outline.

It should be done today.

Aug 05, 2024 11:00:51 am

Doeun Han

We uploaded our draft for our assessment, once you give us revised doc, then we will updated our doc with
both side. Thank you for letting us know

Aug 05, 2024 10:58:19 am

Steven De Costa

Heya, I'm the one to apologise here folks. I didn't get done what I said I'd do so I'm just sorting my schedule time on it.

I was going to message the TechLauncher folks to just let them know I have held you guys up, to ensure they understood the delay.

Aug 05, 2024 10:50:47 am

Doeun Han

*am

Aug 04, 2024 9:46:41 pm

Doeun Han

Steven, I am so sorry to bother you late in the night. By the way, may I ask how far you did the SOW?

Aug 04, 2024 9:46:36 pm

Diao Fu

Aug 04, 2024 12:11:02 pm

Doeun Han

Thank you so much for making time in those busy time frame!! We really appreciate your guidance!!

Aug 04, 2024 9:54:07 am

Steven De Costa

Btw, this blog post explains a bit about the business model changes I'm making at Link Digital, for which they and our outcomes are aligned with, at least in terms of the politics and power dynamics of establishing trust sectors of Government and Academia.

<https://linkdigital.com.au/news/2024/07/link-digital-to-establish-beneficiary-fund-for-digital-public-goods/>

And, the public forum where I discuss some of the changes with various community stakeholders is here:

<https://youtu.be/OX5QCENTkBQ?si=G6pIbRQjS7Snrzq8>

The 'beneficiary fund' that I aim to create and populate with funds has a target of 100mil USD, so to influence such success I need to demonstrate components of how such a fund will deliver benefits.

You guys are part of this plan :)

Link Digital has made some exciting announcements about our future direction, including establishing a beneficiary fund for digital public goods. Read More.

<https://linkdigital.com.au/news/2024/07/link-digital-to-establish-beneficiary-fund-for-digital-public-goods/>

Aug 04, 2024 9:35:56 am

Steven De Costa

Heya folks, my plan to work last night got over ruled by my wife. I have some appointments this morning all through the afternoon so I'm not sure how much time I will have spare. But, by 5pm I am sure to be free to the SoW and give clarity to the project.

Sorry for the compressed timeframes but if folks can take a look at around 8pm tonight then I should have prepared by then.

Thanks again for yesterday and thanks for your patience. We'll be back on track very soon.
1635855486666999

Aug 04, 2024 9:25:32 am

Doeun Han

Yeah. Please. Then, we can send in that doc until Monday morning after all team members check out it.

Aug 03, 2024 7:06:27 pm

Doeun Han

Wonderful!!! Thank you for your understanding. We hope that this project would be helpful for both of us!

Aug 03, 2024 7:04:44 pm

Steven De Costa

Today's catch up was a success for me. Until I was able to provide the range of opportunities for the team to and the focus the team might have, I wasn't to know how much to help with direction. Now I know, and it is no problem at all.

Aug 03, 2024 7:02:55 pm

Steven De Costa

No problem :)

I will be able to fit with what people need to achieve, for sure, while helping to cultivate the things they might want to achieve.

I have a bit of time for the SOW later tonight, then more time from about 6pm tomorrow.

I'll aim to help establish a more set understanding of work, scope, etc. for the team in draft tonight, then receive any feedback tomorrow evening.

Aug 03, 2024 7:01:08 pm

Diao Fu

yeah

Aug 03, 2024 6:52:33 pm

Diao Fu

Aug 03, 2024 6:52:30 pm

Doeun Han

Steven, for this stage, I think since we don't know much about CKAN, it would be hard to suggest an extension using CKAN. You might have expected we suggested some idea. I am sorry about that. I think our whole journey for a year. Therefore, for this semester, we may practice to develop basic tools or applications using CKAN, for next semester, we may be able to suggest an extended idea.

Aug 03, 2024 6:51:53 pm

Doeun Han

Thank you so much for making time today!!!

Aug 03, 2024 5:14:50 pm

Steven De Costa

Thanks, I mean :)

Aug 03, 2024 5:14:31 pm

Steven De Costa

Coolio, thanks :)

Aug 03, 2024 5:14:17 pm

Doeun Han

Steven This is the doc we need to send in by Monday morning. Please look at it and revise as long as you wrote most of them except specific tasks we need to do.

Aug 03, 2024 5:13:51 pm

Steven De Costa

Cool, thanks :)

Aug 03, 2024 1:38:19 pm

Doeun Han

Hello Steven, our school staff said that they are giving us full access to Hive, but for now, we are not sure if
If not, we can use any room in the same building. See you at 3pm!!

Aug 03, 2024 1:36:22 pm

Steven De Costa

Heya folks,

I'm not sure if the Hive is open on Saturday but I am guessing that one of you will know, or will have access
room.

3pm I'll be there and I can stay for as long as folks would like to help the team form an understanding and ;
at least the next two weeks.

Also, I hope everyone knows what I mean by the 'Hive'. It is that first room just outside where clients did the
second pitches.

Aug 03, 2024 1:24:07 pm

Steven De Costa

Anyhoo - I answered the questions in the email, mostly ;)

As mentioned there, I'm happy to help suggest a way of working for the team and a broad approach for thi
release planning, backlog development, etc.

I don't know how familiar everyone is with such concepts but if everyone is generally happy for me to prop

of working on this project then I can prepare this in the way Link Digital does its product management, adjusting the context of this team and this TechLauncher program.

Jul 31, 2024 4:23:17 pm

Steven De Costa

So, I'm guessing that messages here will become visible to the course supervisor for assessment? I think I received something like this in the email on the 29th I was Bcc'd into.
